P010 **Jongchul Lee**, *Ajou University, Korea.*

“Peroxide-Mediated Alkyl-Alkyl Coupling of Dialkylzinc: A Useful Tool for Production of ABAType Olefin Triblock Copolymers”

P018 **Takumitsu Kida**, *Hiroshima University, Japan.*

“Influences of Molecular Weight Distribution on Morphology and Mechanical Properties of Polyethylene Solids”

P022 **Hongyi Suo**, *Institute of Chemistry, Chinese Academy of Science, China.*

“Finely Tuning Fe/Co Precatalysts incorporating *ortho*-Cycloalkylanilines Promoting Ethylene Polymerization”

P055 **Xuling Wang**, *Tianjin University, China.*

“[P,O] Nickel Catalysts for Efficient Copolymerization of Ethylene with 1,1-Disubstituted Polar Ethylene”

P057 **Hu Zhang**, *Donghua University, China.*

“Heterogeneous Nickel Catalyzed Ethylene Homo- and Copolymerization with Polar Monomers”

P062 **Yui Kushima**, *Hiroshima University, Japan.*

“Synthesis and properties of polynorbornene-*graft*-polyethylene”
